

UROBOROS-Glas wird Scheibe für Scheibe handgerührt und handgewalzt. Die Vielfalt der Farbkombinationen und Oberflächenstrukturen macht dieses Glas unersetzlich für den traditionellen Lampen- und Fensterbau im Stile Tiffany´s. Bezeichnend für UROBOROS-Glas sind nicht nur die natürlichen Farben, sondern auch die Ausgewogenheit von transparenten und opalen Partien in einer Scheibe. Daraus resultiert die enorme Tiefenwirkung dieses Glases.

Auch für den Bereich Glasverschmelzung (Fusing) bietet UROBOROS eine umfangreiche Palette an einfarbigen, transparenten und opalen Gläsern. Diese Gläser sind hier mit "F" gekennzeichnet.

Neu im Programm ist das SYSTEM96™(SF). Mit diesem System sind die entsprechenden Gläser (Flachglas, Krösel, Stringer etc.) von UROBOROS und SPECTRUM untereinander mischbar.

UROBOROS glass is hand mixed and rolled sheet by sheet. The diversity of color combinations and surface textures makes this glass indispensable for the construction of traditional lampshades and windows in the style of Tiffany. Typical for UROBOROS glass is not only the natural colors but also the balance of transparent and opalescent glass for the field of glass fusing. These glasses are designated by an "F" in this list. New in this range is the Sytem96™(SF) programm. Using this glass (sheets, frits stringers, etc.) the UROBOROS program can be combined with SPECTRUM glass having the same designation.

Glasmaß / sheet size: ca.0,80 x 0,60m
 Gewicht pro Blatt / weight per sheet: 3,6 kg
 Kisteninhalt / case contents: 45 Blatt / sheets
 Gewicht pro Kiste / weight of case: 162 kg
